Zoning:

Plot Plan Approval-----Date _____

Conditional Use Permit-----Date _____

Elevation check-----Date _____

Endangered Species Habitat-----Date _____

Collector Roads:

A new home that must face a collector road and cannot be faced to a residential street, must have a turn-around driveway or other means that allow vehicles to drive off the lot facing the Collector Road, as backing out of the driveway of property onto a collector road is against Enoch City ordinance 96-06-19 C.

Minimum height – Building pad:

The building pad should be placed at an elevation of 18 inches above the top of the grade of the road. This is to diminish a potential flooding problem that could occur in a 100-year flood scenario.

Streets:

Provisions must be made while the home is under construction to protect the street from damage due to delivery trucks or any other equipment during construction.

Final Inspection:

The final inspection on the home will include culvert, road, and bar ditch, or curb, gutter, street and sidewalk condition.
