4. **COUNCIL/STAFF REPORT**

Earl Gibson reported they got the roof on the well house and are putting siding on. The electrician is ordering parts and will be ready to install next week. They are working on other little projects while waiting for the engineering for the animal shelter road and water line.

Chief Ames said they have been busy. He made a posting on the Facebook page encouraging people to stop at school buses when lights are flashing and signs are out. There have been lots of violations of that law. They are patrolling more watching for violators. They had a golf tournament with Mayor Chesnut and the other PD officers who represented Enoch for the Children's Justice Center fundraiser and that went well. They have had 950 cases for the year so he expects to be over 1000 for the year. Regrettably we have had three deaths the last two weeks. Jeremy and he responded to a burglary where guns were stolen for the second time at same house. They know who it is and will track him down. There is more meth lately. Drugs are prevalent.

City Manager Dotson reported we would like to open the budget on Nov. 1st and at the Nov 15th meeting have a discussion of changes needed. We will set the public hearing for Dec. 6th then pass and close the budget. The Christmas Party will on the 20th after a short City Council meeting. Gateway Academy has given us permission to use their building again for the party which will be pot luck. The funeral for Heather Alvarado went off well and had heavy attendance with lots of family members. The cemetery was ready for it and it was well done. Our PD did traffic control. KSL did a report that the family approved. One national correspondent was there and local news people. The family is being well taken care of. The Fire Dept. takes good care of their own people.

Julie Watson reported on the next agenda.

Council Member Johnson said it is good we are raising awareness on stopping for school buses. It is hard to get kids to cross properly.

Council Member Stoor said the Tree Committee meeting is coming up and the Rec Advisory Board meeting too. We are looking at getting some engineering for the park in Iron Mountain Subdivision which contains a storm drainage basin and don't know the cost yet.

Council Member Owens reported the EDC formalized their packets and are working on advertising. They went out to start talking with businesses about their needs. He will have some data to report soon.

5. ADJOURN-Motion to adjourn by Council Member Stoor, Motion seconded by Council Member Owens and all voted in favor. The meeting ended at 6:21pm.

Julie Watson, Recorder
